

AND THE WORD WAS MUSIC

Words: Ian and Luke Music: Luke

*In the beginning was the word
And the word was music
And God heard the word
Yes God heard the word
But the word he heard
Was bass ...*

*In the beginning was the word etc
...guitar ...*

And God liked what he heard
The music and the words
The words and the music
Going together
Like the English and the weather
The Scots and the heather
Elvis and leather
These rhymes are clever... Never

*In the beginning was the word etc
...accordion...*

*In the beginning was the word etc
...fiddle...*

And God liked what he heard
The music and the words
The words and the music
Going together
In the heat of creation
The train's at the station
The station called rhythm
Calling at Lytham... St. Anne's

*In the beginning was the word etc.
...hurdy gurdy
The word he heard
Was hurdy gurdy
hurdy gurdy
hurdy gurdy
Yes the word he heard was hurdy hurdy gurdy gurdy
And it was good
Bloody good
That's absurd... so I heard-y gurdy*

All this creation's hard on the ears
It begins in the void
But it ends in tears
All those mountains
All those volcanoes
All that lava
What a palaver
All that crashing
I'm hard of hearing
Now I'm Mutt and Geoff

It's not much good
For a supreme being
What?... Being deaf

In the beginning was the word
Something beautiful's just occurred
But this is the end
The end of the beginning
They're about to start singing
They're about to start singing

*In the beginning was the word
The word
And the word was music
Music music
And the word was music*
